# VISICOIL™ MR

## Multi-modality linear fiducial marker for efficient MR/CT fusion and IGRT

### SEE IT!

#### Visually Identifiable

- Enhanced MR visibility = Easier MR/CT Fusion
- Multiple reference points per marker allows for fewer needles
- Visible under multiple imaging modalities
- Minimal CT artifact

### TRUST IT!

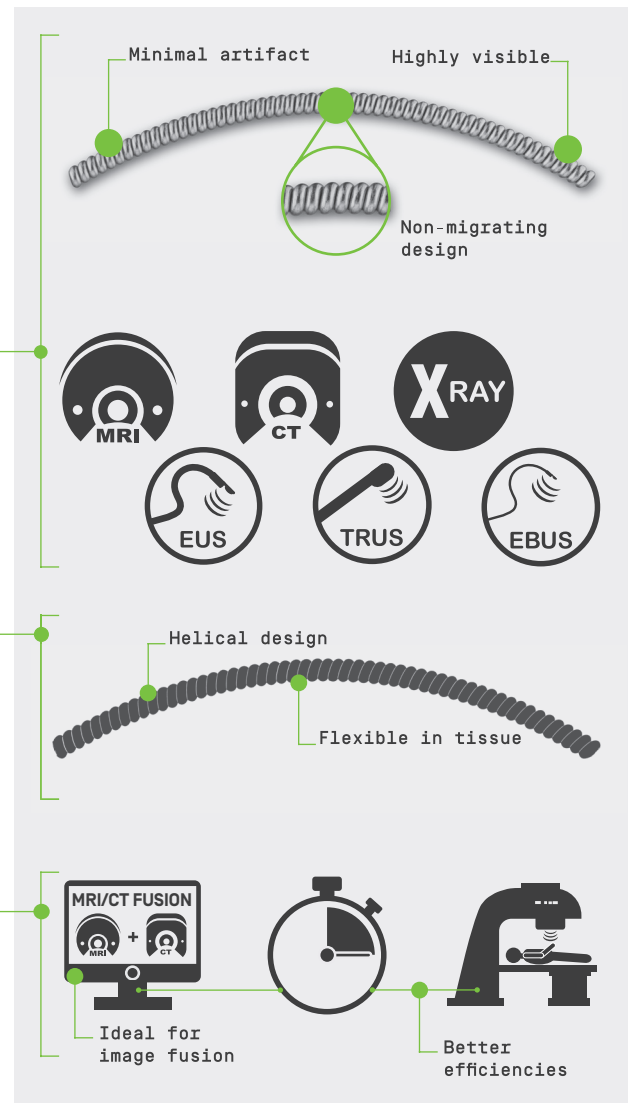

#### Stable in tissue

- Stable marker localization from implant through treatment
- Uses VISICOIL proven patented design
- Helical shape and flexible design fixates marker in target tissue
- Smaller implantation path improves stability in tissue

### TREAT IT!

#### Easy to use

- Smaller needles = Safer implants and improved patient comfort
- Minimally invasive design allows for atraumatic placement
- Efficient and reliable daily treatment set up
- Multiple configurations available to suit your needs

#### Available Sizes
